COVID-19 UPDATE

At Mamma Team we are committed to sharing with you the latest news & keeping our sets safe.

October 27th, 2020

- In late October, the Spanish government announced new Covid-19 safety measures including a night-time curfew. Nevertheless, production work is still authorised to continue throughout the day AND DURING curfew hours, following usual local permits requirements for each city and up to date health & safety measures.

Secondly, we are very happy to share that Spain has created an **Audiovisual Visa** allowing everyone around the world to come to Spain for filming. So regardless of the latest travel restrictions in the EU & Spain, essential crew can now apply for this visa at their local Spanish embassy to join us on set in Spain. No quarantine on arrival in Spain necessary. Please get in touch with our Producers that can assist on this very simple procedure.
